

IS MY CHURCH ACCESSIBLE?

PARKING OBSTACLES

Obstacles in the cross-hatched space between spaces interferes with wheelchair ramps. Cars parked over the lines, delivery trucks, parcels and snow can all cause hazards.

SEATING OPTIONS

Seating for persons in wheelchairs should offer options for preference and allow an adequate view when others are standing.

CURB CUT OBSTACLES

Flower pots, parcels or snow drifts left in Curb Cuts make them impassable for wheelchairs.

HANDRAIL OBSTACLES

Decorative garlands and flower pots near or on handrails are dangerous.

DOOR BUTTON OBSTACLES

Tables, chairs and decor can make door opener buttons hard to reach from wheelchairs. Ensure that Door Buttons are always working and doors are unlocked.

SERVICE DOGS

Service dogs must focus on their handlers at all times. Talking to them, offering them food, petting them or staring at them can distract them and be dangerous for their handlers.
