INDEPENDENT AUDITOR'S REPORT

To The Administrative Segment of
The Diocese of West Missouri
Kansas City, Missouri

Opinion

We have audited the accompanying financial statements of The Administrative Segment of The Diocese of West Missouri which comprise the statement of financial position as of December 31, 2024, and the related statements of activities, functional expenses, changes in fund balances, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Administrative Segment of The Diocese of West Missouri as of December 31, 2024, and the changes in its fund balances and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Administrative Segment of The Diocese of West Missouri and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Administrative Segment of The Diocese of West Missouri's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with

generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Administrative Segment of The Diocese of West Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Administrative Segment of The Diocese of West Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental information shown on pages 16 to 18 is presented for the purpose of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the financial statements as a whole.

**THE ADMINISTRATIVE SEGMENT OF THE DIOCESE OF WEST MISSOURI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024**

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

The Diocese of West Missouri (the Diocese) is a voluntary religious association composed of clergy, parishes, mission congregations, and the members thereof. The governing body of the Diocese is the Diocesan Convention, which determines the terms and conditions under which parishes or mission congregations may be formed in the Diocese. Additionally, the Diocesan Convention determines assessments from the various parishes or mission congregations to finance the activities of the Diocese's programs. Parishes are incorporated as separate legal entities. Mission congregations are not separate legal entities from the Diocese and, according to the Diocesan Canons, cannot have any assets. The Administrative Segment of The Diocese of West Missouri's major sources of revenue are investment income and assessments from member churches.

For purposes of financial statement reporting, the 17 mission congregations' assets, liabilities and operating transactions are a separate segment of the Diocese. The segment of the Diocese included in these financial statements include the operations related to centralized administrative and programmatic functions (the Administrative Segment, hereinafter Organization) that benefit all its members.

Income Taxes

The Diocese has been designated as a tax-exempt organization pursuant to Internal Revenue Code (IRC) Section 501(c)(3). Further, the Diocese has been determined not to be a private foundation per IRC Section 509(a). Accordingly, no provision for income tax expense or excise tax expense has been made. Management has reviewed all sources of revenue and does not believe the Organization to be subject to income tax on unrelated business income.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Under this method, revenues are recognized when earned or when all conditions for income recognition have been met, and expenses and purchases are recognized when the obligation is incurred.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenue, expenses, gains, losses, and other changes in fund balances during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purpose of the Statement of Cash Flows, cash deposits and all other investments with an original maturity of ninety days or less are considered to be cash and cash equivalents.

THE ADMINISTRATIVE SEGMENT OF THE DIOCESE OF WEST MISSOURI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024

Functional Allocation of Expenses

The expenses presented on the statement of functional expenses are largely direct costs attributable to each program or administrative costs. There are immaterial expenses that could be allocated to programs; however, management has elected to allocate these 100% to administrative cost as the effort to allocate these outweighs the benefit.

Fixed Assets

Purchased property is recorded at cost. Donated property is recorded at market value at the time of donation. All repairs and additions are expensed except for purchased vehicles and building which are capitalized. Management evaluates its long-lived assets for impairment when circumstances indicate the carrying amount may not be fully recoverable. This evaluation is generally performed using year-end information.

Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to operations over their estimated service lives. The estimated service life of the assets for depreciation purposes may be different than their actual economic useful lives. The Organization has adopted the straight-line method of depreciation and has assigned useful lives to the following classes of fixed assets:

	<u>Estimated Life</u>
Building	40 years
Automobiles	5 years

Contributions

Contributions received are recorded as restricted or unrestricted depending on the existence and/or nature of any donor restrictions. All contributions are considered to be available for unrestricted use unless specifically restricted by the donor or by law. Amounts received which are designated for future periods or restricted by the donor for specific purposes are reported as restricted support that increases those net asset classes.

Compensated Absences

Employees of the Organization are entitled to paid vacation, depending on job classification and length of service. It is the Organization's policy to recognize costs of compensated absences when actually paid to employees. The Organization does not accrue a liability for compensated absences because employees are not eligible for payment for unused paid time off at the time of termination of employment.

Receivables

Assessments and notes receivable consist primarily of contract amounts due from mission congregations and parishes. Management reviews individual receivable and evaluates if the accounts are collectible. Any receivable determined to be uncollectible are written off when deemed uncollectible. Recoveries of a receivable previously written off is recorded as revenue when received. Assessment receivables are due within one year from the fiscal year ended December 31, 2024.

**THE ADMINISTRATIVE SEGMENT OF THE DIOCESE OF WEST MISSOURI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024**

Classification of Fund Balances

The accounts of the Organization are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues, and expenses. The following funds are used by the Organization:

- The General Fund is the general operating fund of the Organization. All revenues that are not allocated to another fund are accounted for in this fund. From the fund are paid general operating expenses, fixed charges, and capital improvement costs that are not paid through other funds.
- The Expansion Fund is used to account for monies designated by the Diocesan Convention for the development of new congregations and growth of existing congregations. Loans to member congregations are charged off when management deems them to be uncollectible.
- The Investment Funds are used to account for assets donated and bequeathed to the Diocese for the benefit of specific parishes and mission congregations, or for the benefit of the Diocese.

Going Concern Analysis

Management evaluates whether there are conditions and events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within a year of the financial statement issue date.

NOTE 3 – ECONOMIC DEPENDENCY

The Organization received 48% and 50% of its revenues from assessments charged to member churches and investments, respectively. If a significant reduction in the level of revenue from these sources were to occur, it could have an adverse effect on the Organization's operations.

The Organization serves member churches in the western Missouri area. Future operations could be affected by changes in economic or other conditions in the geographic area.

NOTE 4 – CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Organization to concentrations of credit risk are cash and cash equivalents, and investments arising from normal business activities.

Cash and cash equivalents

The Organization maintains cash and cash equivalents with one financial institution insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. The Organization's cash and cash equivalents balance may periodically exceed FDIC insurance limits. The Organization believes it is not exposed to significant risk due to the financial position of the depository institution in which the deposit is held. At December 31, 2024, the Organization had cash and cash equivalents in excess of the FDIC insured amount by \$808,475.

**THE ADMINISTRATIVE SEGMENT OF THE DIOCESE OF WEST MISSOURI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024**

Investments

Investments are exposed to various risks, such as interest rate, market and credit risk. Market values of investments fluctuate based on the magnitude of changing market conditions. Concentration of credit risk for investments is mitigated by the overall diversification of the managed investment portfolios; however, significant changes in market conditions could materially affect portfolio value in the near term. The concentration of credit risk exists to the full extent of amounts reported on the Statement of Financial Position.

NOTE 5 – LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS

The Organization’s financial assets available within one year of the statement of financial position date for general expenditures are as follows:

<u>Financial assets at year-end:</u>	
Cash	\$ 977,255
Assessment receivable	14,860
Other receivable	13,289
Investments	<u>11,960,517</u>
	12,965,921
Restrictions:	
Cash held for others	(236,158)
Investments restricted by donors	<u>(1,281,681)</u>
	<u>\$11,448,082</u>

General expenditures include all the expenditures necessary for the operations of the Organization. As part of the Organization’s liquidity management, it has structured its financial assets to be available as its general expenditures and liabilities come due. In addition, the Organization invests excess cash to earn investment income.

NOTE 6 – RESTRICTED AND DESIGNATED FUND BALANCES

Fund balances without donor restrictions designated by the Diocesan Convention are available for purposes stated in schedule of designated fund balances (Page 17) and restricted fund balances are available for the purposes stated in schedule of fund balances with donor restrictions (Page 18).

NOTE 7 – COMMITMENT

The Organization was obligated on a loan at December 31, 2024. The Organization is a guarantor on this debt and will be liable to pay this debt in the event of default by debtor. The payment on the loan is current at December 31, 2024.

<u>Church</u>	<u>Maturity Date</u>	<u>Balance</u>
Saint Mary Magdalene – Village of Loch Lloyd (Saint Mary)	11/20/2028	\$853,486

**THE ADMINISTRATIVE SEGMENT OF THE DIOCESE OF WEST MISSOURI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024**

NOTE 8 – EMPLOYEE BENEFIT PLAN

Compensated clergy and lay personnel (who work a minimum of 1,000 hours per year) are covered by a group pension plan. The organization providing pension coverage is The Church Pension Fund. The pension plan is a multiemployer plan, and the value of vested and nonvested accumulated plan benefits relating to the Organization is not determinable. Pension contributions for the personnel are made by the Organization. The Organization contributes 18% and 9% of compensation for clergy and lay personnel, respectively. The contributions are vested immediately for clergy. The contributions for lay personnel vest after 5 years of service. Pension contributions by the Organization were \$95,835 for the year ended December 31, 2024.

The Organization also offers a 403(B) retirement plan (the Plan). The key provisions of the Plan are as follows:

- All employees are eligible to participate in the Plan.
- An employee may contribute up to the maximum limit allowed by the Internal Revenue Services (IRS) to the Plan (elective deferral). For employee's age 50 or over an additional catch-up contribution up to the limit allowed by IRS can be made.
- The Organization does not match the employee's elective deferrals.
- Employee contributions are 100% vested.

NOTE 9 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below:

- Level 1: Valuations for assets traded in active exchange markets, such as New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.
- Level 2: Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.
- Level 3: Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. These valuations incorporate certain assumptions and projections in determining the fair value assigned to such an asset.

The following is the Organization's fair value measurements at December 31, 2024:

	<u>Fair Value</u>	<u>Level 1</u>
Mutual Funds	<u>\$11,960,517</u>	<u>\$11,960,517</u>

**THE ADMINISTRATIVE SEGMENT OF THE DIOCESE OF WEST MISSOURI
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2024**

Assets under the investments are pooled for investment purposes. Each trust fund holds shares in the pool. The number of shares assigned to each trust fund changes when additions and/or withdrawals are made. Withdrawals are normally processed at the same time as dividend distributions. Participants who need 90% or less of their funds before the end of a quarter will be accommodated as soon as possible. Participants who need more than 90% of their fund balance before the end of a quarter will receive 90% of the estimated market value as soon as practicable; the remaining 10% will be remitted with the regular distribution.

NOTE 10 – INCOME FROM TRUST

In 1961, the William C. and Marie S. Shank Charitable Trust (Shank Trust) was created to benefit various charities. The Organization receives 5% of the interest income generated from the trust annually. In 1967 and 1968, principal assets of the Nina L. Remfry Trust (Remfry Trust) were bequeathed in perpetuity to a trust with the net income derived from the trust estate to go to the Organization. The assets of the Remfry and Shank Trusts are under the control of a bank trustee and are not owned by the Diocese and are not included in the accompanying financial statements. The interest income from the Remfry and Shank Trusts is included in the investment income of the General Fund.

The interest received by the Organization for the year ended December 31, 2024 for the Remfry Trust and the Shank Trust are as follows:

Remfry Trust	\$226,361
Shank Trust	<u>5,235</u>
	<u>\$231,596</u>

NOTE 11 – FIXED ASSETS

The major classes of fixed assets are:

Building	\$726,613
Automobiles	<u>46,028</u>
	772,641
Accumulated depreciation	<u>(754,377)</u>
	<u>\$ 18,264</u>

NOTE 12 – DATE OF MANAGEMENT’S REVIEW

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through October 9, 2025, the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

SUPPLEMENTARY INFORMATION
